TSM Serves as Distributors for the Following Companies

Pure Agronomy Real Results

Why TSM?

Agronomically Sound

Our calculations leave no guesswork! Where others guess or have standard calculations and tables, we have a unique and solid calculation.

Economically Sound

Our budget compares to others, but our maximum economic yield and return on investment is higher. We can help you reach maximum return on fertilizer investment.

Environmentally Sound

We only add what is needed to your soil. No polluting! Environmental considerations are designed into all recommendations.

Program Services

GPS Soil Sampling Services

Customized Recommendations

A balanced fertility plan for each farm by field, by grid, and by crop.

Expert Fertilizer Advice

Contact with a qualified agronomist and consultant.

GPS Expertise

AGRI-DATA MANAGEMENT
A division of TSM Services, Inc.

We provide professional mapping, VR application files, and yield maps.
